ERRATUM TO
COMMENTS OF ROAMER ONE, INC.

DOCKET FILE COPY ORIGINAL

Roamer One, Inc. ("Roamer"), by its attorney and pursuant to Section 1.415 of the Commission's Rules, hereby files an Erratum to correct one factual inaccuracy in its Comments, filed April 11, 1995, with respect to the Commission's proposal to revise its criteria for evaluating foreign ownership under Sections 214 and 310 of the Communications Act of 1934, as amended.^{1/}

In the bottom paragraph of page 2, the Comments incorrectly identified Toronto, Canada as the principal place of business of Intek Diversified Corporation ("Intek"), Roamer's parent company. In fact, Toronto is the principal place of business of Simmonds Communications, Ltd ("SCL"), a Roamer contractor and from whom Intek is now purchasing some communications-industry businesses. Intek's principal place of business is in Los Angeles, California.

^{1/} Foreign-Affiliated Entities, 10 FCC Rcd ____ (FCC 95-53, released February 17, 1995) (Notice of Proposed Rulemaking) ("NPRM").

Attached hereto is a revised page 2 of the Comments, correcting this error. Roamer apologizes for any inconvenience.

Respectfully Submitted,

ROAMER ONE, INC.

construct and manage 220 MHz SMR systems across the country. Roamer has participated actively in the Commission's CMRS and Competitive Bidding rulemakings, and was a moving party in the Commission's recent decision to extend the 220 MHz construction deadlines.

Roamer placed its first 220 MHz SMR system in operation during February 1994. Starting in August 1994, Roamer began placing equipment orders for the various systems it manages. At present, Roamer is operating approximately forty (40) 220 MHz SMR systems, and has equipment installation underway for approximately forty (40) more systems.

Roamer and Intek have entered into a contractual agreement with Simmonds Communications, Ltd ("SCL") for the supply of infrastructure equipment, technical assistance, and engineering design concerning the build-out of 220 MHz transmitter sites managed by Roamer on behalf of a number of licensees. Roamer has ordered 443 five channel 220 Mhz systems through SCL.

Intek is a Delaware corporation, publicly traded on the NASDAQ Small-Cap Exchange, with its principal place of business in Los Angeles, California. Four of eight Intek directors are Canadian, three are United States citizens, and one is a citizen of the United Kingdom. Three of Intek's five officers are Canadian; two are U.S. citizens. At present, approximately thirty percent of Intek's shareholders are Canadian; majority control now resides in U.S. citizens.
